Hedgehogs

This is why we need to save them!!!!

Bit by bit the number of Hedgehogs is getting smaller and smaller. Some are starving to death or having no food' they are also suffocating. Now lots of people are trying to save them. I once saved one from suffocating. Here are two hedgehogs that have got trapped in barbed wire. Very sad isn't it? But now hedgehogs are getting saved. Take a look at these pictures.

When Marnie Was There

When Marnie was there is a beautiful, heart-warming and emotional movie created by Studio Ghibli. It was released in 2014.

Anna – the main character – is an introverted 12 year old who grew up with two foster parents. She has asthma, and collapses at the start of the movie because of it.

Marnie is a young girl whom Anna meets when rowing a boat over to the mansion in the marsh. This girl stays with her for the whole movie and is by far my favourite character.

When Marnie Was There has lots of beautiful scenery within the movie along with a relaxing atmosphere to it.

At the start of the movie Anna is very introverted and doesn't really show emotions; she keeps an 'ordinary face' all the time, but by the end she shows several emotions along with making friends.

Fiona tracks the story of The double Portacabin replacing Kidzone

All about Kidzone

Kidzone is an out-of-school club. It runs on mornings and after school. As well it is used at lunch as a toilet because school is locked, and it is on the infant playground.

The Kidzone building goes -When will it happen?

As plans have slipped a bit it will now be happening on 14th June – now 28th June (fingers crossed). It would have happened in half term which would have been better.

What will happen to Kidzone?

Kidzone will be knocked down and some tiles will be put down to make a football pitch for the boys, so the ball can come off the playground in .

Why we need more class rooms

As most of you know there is some new housing down the road which means more children and more school. But our school won't change much in size because Kidzone is going into the school.

On Monday 27th June the building started for the two new classrooms. The first thing they did was put up the fencing around the working area as shown on the pictures. The next day they finished off the fencing and put down a temporary road. The builders have had to dig the foundations for the new classroom

Road safety!

-  First, don't wear earphones because you won't hear anything.
-  Secondly, don't have your hood up because you can't see as much.
-  Thirdly, don't wear dark clothes because no one will see you.
-  Finally, always look left and right because you need to see any cars.

And a reminder from your junior road safety officers

The J R S O Officers say...

- 1) Wear bright clothes or carry something bright.
- 2) If you are a biker don't get caught in a blind spot.
- 3) If you are a passenger always get out on the path side.
- 4) If you are going to cross the road pay attention and always use a crossing if there is one.

LACEY AND THE NEW DOG

One glorious morning, as the moon went down and the sun went up, the sun was shining brightly towards me. So the beautiful morning starts by me begging my mum on my knees to buy me a chocolate brown Labrador, which I can call Moshi.

“If you are wondering why that is because chocolate brown labs are really hyper.” They jump a lot. Chocolate brown Labradors are really: cute; soft; jumpy; adorable and lots more. My mum got sick of me begging for a dog. So she said “Fine, you can get a dog with your birthday money I was going to give you next week.” I said “Oh yeah, I forgot it's my birthday, I shall be 9.” After breakfast I went to get my new puppy I was so excited! I finished my breakfast. I was dancing around the house. As soon as we set off I was laughing so much I started getting water in my eyes. I asked my mum ‘when are we there?’ and she answered ‘in 5 mins’. I was so happy . by Ashlee

Big Breakfast

Welcome to our big breakfast. It was made by our wonderful cooks - that means they had to start work/cooking early for all of our students' parents. The Big Breakfast was on Thursday 23rd June, which is probably the special day of the year because of something that is called the Referendum. It was lovely of the cooks to do it. Breakfast is important because it gives you energy throughout the day. It started at 8:15am. There was something for vegetarians as well as people who eat meat – a wonderful choice of food. The adults got coffee or tea. It was a chance for the adults and children to meet and talk.
