

Physical Education Sport Premium Targets – 2016

Competition Focus Autumn 2016:

- Ensure identification and selection of the most talented children for competitive events this term to represent the school – These will be in Cross country Running and Football
(16 pupils qualified for Hambleton Area Finals)
- We will also be selecting a second ‘b’ team of year 5/6 pupils to attend the football competition
- All children in Key stage 1 will participate in the Thirsk are Fun run – Sowerby Won two golds and one bronze medal
- All pupils will aim to improve upon their own ‘personal best’ through target setting in PE lessons and improving targets and times on our mountain ladders assessment tasks and in running and skipping activities.

Our targets this year (PE specialist)

- To re - introduce an effective games /activity leadership system with Year 5/6.
To encourage active playtimes and empower pupils to believe in their ability to lead others. Year 5 and 6 will apply for the role of ‘School Games leaders’, using physical activity to keep their peers busy and active during playtime to avoid conflict which occurs during lunch play, but also to encourage social interaction with specific groups of targeted pupils.
- To continue work with EYFS and Year One staff on identification and early intervention of fine and gross motor skills with specific groups of children.
- To continue work with ‘target’ children identified from last years’ PE surveys (2015/16) / assessment ladder results as inactive or requiring support in some way – track progress and support staff with these pupils
- Develop a sense of resilience amongst children using PE as a driving force – Continue to develop opportunities within the curriculum which allow the pupils opportunity to set targets and work hard to achieve them (use mountain ladders) Use ‘Marvellous Me’/raffle tickets to celebrate success in PE as well as other subjects
