

As historians we will:

Look at how transport has changed throughout history. We will study early travel looking at Viking Longboats and look at the history of cars, trains and airplanes.

As musicians we will:

Chant and sing a short musical pattern keeping a steady pulse or beat.

As ICT technicians we will:

Use technology to design a model of a train, bus or car.

As designers we will:

Design and make a model of a train, bus or car.

As artists we will:

Use colour imaginatively

As scientists we will:

Learn about different materials and their uses. We will identify and classify their uses; compare the suitability of a variety of everyday materials; investigate changing the shape of solid objects and how this is used in recycling.

Year Group: 2

Transport

As mathematicians we will:

Learn about number facts and the number system. We will be developing our problem solving and reasoning skills. Our Superhero maths sessions will help us practise our mental maths facts.

As theologians we will:

Learn about different celebrations and how we celebrate special times.

As athletes we will:

Develop our agility, balance and coordination through outdoor activities including using apparatus. We will also perform dances using different movements which will link to our story in literacy. Linking to our science work we will learn to check our heart beats.

As citizens we will:

Develop our role as citizens in creating a happy school and creating our own class rules.

As writers and readers we will:

Read stories featuring a character created by Quentin Blake, Mrs Armitage. We will use Talk for Writing to invent our own story using different modes of transport.

We will read and write poetry inspired by the book, You can't take an Elephant on the Bus.

Trips and Visits
